## Columbarium

Columbaria are granite structures with secured covered compartments called “Niches”. These structures are designed for above ground committal of cremains.

Columbarium #1 contains 48 niches which can hold 96 urns. There is a Memorial Wall on both ends of the Columbarium for loved ones who have not been interred at Mount Patricia Cemetery but can still be remembered and honoured with a Bronze Medallion Memory Plaque.

Columbarium #2 contains 84 niches which can hold 204 urns. (48 niches that hold a maximum of 2 standard urns and 36 niches that hold a maximum of 3 standard urns).

Columbarium #3 contains 84 niches which can hold 204 urns. (48 niches that hold a maximum of 2 standard urns and 36 niches that hold a maximum of 3 standard urns).

The Columbarium is made of 100% Canadian granite and is a forever product that has a significantly smaller carbon footprint, is a polished design with chip and flame base.

The Columbaria site is designed to provide a park-like atmosphere for remembrance and meditation.
